

# Provo City School District

## Provo Way Innovation Learning Initiative

### Statement of Commitment

By agreeing to take part in the Provo Way Innovation Learning Initiative, I further agree to the following:

1. Full attendance and participation in the weekly PLC meeting.
2. Basic care, monitoring, and security of the devices.
3. Adhering to the spirit of a collaborative and willing cohort of teachers, willing to share ideas, techniques, discoveries, and curriculum.
4. A recognition that this project is about far more than simply acquiring/deploying technology devices.
5. A willing receptiveness toward the professional development being provided.
6. Using the LMS for communication, collaboration, and instructional purposes.
7. Willingness to use and apply the professional development.
8. Willingness to provide feedback on additional areas of needed professional development.
9. Being a model in the building (and possibly for the district) in this new approach to teaching and learning.
10. Willingness to train others in this new approach to teaching and learning.
11. Directing concerns to the project director when something is not working.
12. Contributing in a positive way, even when facing some struggles.

***Our hope and intention is that teachers will find that they can go many new and different directions as they become increasingly adept at this new approach to teaching and learning. The opportunities for creativity are myriad. However, the above norms are essential. If a teacher does not demonstrate a substantial commitment to the norms, the district reserves the right to take back the devices and select a different teacher to be part of this project.***
