**out of 10**  
Average score of how likely it is that respondents would recommend the 2023 reports to a friend or colleague?

 **4.9**  
**out of 5**  
Average score of how valuable the respondents found the reports to be.

## What the Advisory Board Members have to say:

"This provides my organization with a community-of-practice vetted document that helps define directions for us into the future. CoSN resources are held in high esteem."

"The final report is an excellent guidance tool and one I have used for communication at the board and cabinet level for the organization. Being able to give more of a macro level perspective on some issues that affect the organization at a micro level has allowed us to move forward on several discussions by passing hurdles."
