

# Our AI Approach

## School Accountability

### GOAL

Ensure AI is used responsibly and effectively.

### TEACHER TRAINING

- All teachers receive ongoing training on appropriate, effective AI use.

### OVERSIGHT & EVALUATION

- AI tools and practices are reviewed by a team of educators, tech experts, and parents.

## School Accountability

## Personalized Instruction

### Adaptable

We update our approach as AI technology evolves.

### Inclusive

Every student benefits equally from AI tools.

### Transparent

We keep you informed about how AI is used in your child's education.

## Learning Benefits

## AI Literacy

## Safety & Protection

### GOAL

Keep student data and content safe.

### DATA PRIVACY

- Student information is never shared without permission.
- Strict security measures protect all data.

### CONTENT SAFEGUARDS

- AI tools include filters and are monitored by teachers.
- All classroom AI content is teacher approved and aligned to district standards.

## Personalized Instruction

### GOAL

Tailor instruction to student needs.

- Extra help where your child needs it.
- Acceleration where they excel.

## AI Literacy

### GOAL

Teach students to use AI responsibly.

- Students learn when AI is useful and when it's not.
- They practice verifying AI provided information.

## Learning Benefits

### GOAL

Enhance education and prepare students for the future.

- AI enhances instruction and supports future ready skills.
- Prepares students for a world where AI is common.
